

Amendments to the Claims:

This listing of claims will replace all prior versions and listings of claims in the application:

Listing of Claims:

1. (Currently Amended) A stent graft for insertion into a body vessel of a patient, said stent graft comprising:
 - a. a single hollow substantially cylindrical, radially expandable stent having a body, two open ends and defining a longitudinal axis there between, the ~~said~~ body comprising a plurality of interconnected struts forming a plurality of substantially diamond shaped cells and the plurality of diamond shaped cells forming substantially cylindrical shaped elements, and a plurality of substantially sinusoidal rings positioned between the substantially cylindrical shaped elements ~~cells~~, each of the plurality of substantially sinusoidal rings having a plurality of peaks and valleys and wherein there are two peaks between ~~each~~ circumferentially adjacent diamond shaped cells ~~cell~~, ~~said the~~ body being a one piece, unitary stent structure; and
 - b. a graft member attached to the single hollow substantially cylindrical radially ~~expandable~~ expandable stent, the single hollow substantially cylindrical radially expandable stent extending through and being covered by the entire length of the graft member, said graft member having a plurality of substantially longitudinally directed pleats disposed thereon.
2. (Currently Amended) The stent graft of Claim 1 wherein ~~said the~~ the graft member is attached to an exterior surface of ~~said the~~ the stent.
3. (Currently Amended) The stent graft of claim 1 wherein ~~said the~~ the graft member is attached to ~~said the~~ the stent by a staple.

Serial No. 10/622,725

4. (Currently Amended) The stent graft of Claim 1 wherein ~~said~~ the graft member is selected from the group consisting of Dacron, Teflon, woven polyester, and polyurethane.

5. (Currently Amended) The stent graft of Claim 1 wherein ~~said~~ the stent is a self expanding stent.

6. (Currently Amended) The stent graft of Claim 5, wherein ~~said~~ the stent is made from a super elastic alloy of nickel titanium.
